How to succeed with each color

Green: You have to be ok with them being slow at making decisions. They are very philosophical and take their time. Greens like to work by themselves so it is important to understand how independent they are. They are very curious so let them be

Orange: You have to be open about change. Have to be quick about things. Have to be open when it comes to taking risk. Oranges are very competitive so let them be. Give them the job that they can have the most fun doing

Gold : To succeed with a gold, you must be truthful, loyal and organized. You have to understand their basic needs and work with them and not around them.

Blue : Blues want to work with you so having them know about you and making them feel like you want to work with them is crucial. You have to cooperate with them and value them and their ideas. Blues want there to be room for expression & customisation in work.
